# Timeshare Development Law

As one of the nation's premier tourist destinations, South Carolina has seen major growth in the timeshare, fractional and destination club industries. These industries present their own legal challenges. Barnwell Whaley timeshare development law attorneys have conducted hundreds of timeshare closings on behalf of developers, and counsel timeshare and destination club developers in development, management, dispute resolution, foreclosures and regulatory compliance matters.

Recognizing that speed and accuracy are essential in any closing situation, Barnwell Whaley has developed its own proprietary software, designed specifically to facilitate closing purchases on a large scale. In addition to generating customized legal documents, the software serves as a sophisticated inventory control device for the firm and our clients, creating real time snapshots of the status of each individual timeshare in a development. Our software also serves as an interface between the firm, the clients' sales offices and the Office of the Register of Deeds.

Barnwell Whaley Timeshare Development attorneys represent and counsel developers in the following areas:

- Closings
- Timeshare management
- Dispute resolution
- Timeshare foreclosures
- Timeshare regulatory compliance matters
